Re: Extension of Water Right Permit No. G2-26232 for Alderbrook Water System

Dear Ms. Gray:

**Extension approval**

In response to your request, you are hereby granted a five-year extension to put water to full beneficial use under Water Right Permit G2-26232. The extension is granted for the reasons below:

- You have demonstrated consistent and measurable progress and due diligence in the development of this permit.
- You intend to drill a second well under this authorization.
- Due, in part, to current economic conditions, the service area under this permit has not been fully developed and additional services are intended.

The new deadline to submit your *Proof of Appropriation of Water* is **March 1, 2014**.

**Summary of water right authorizations**

You requested clarification of the limits of this authorization:

- Well 1 is covered under Certificate 7343-A for 156 gallons per minute (gpm) and 249 acre-feet per year (AFY).
- Well 2 is covered under Certificate 7342-A for 140 gpm and 224 AFY.
- Well 3 and future Well 4 are covered under Permit G2-26232 for 600 gpm and 843 acre-feet per year. Of the annual quantity under this permit, 370 AFY is issued as a primary right and 473 AFY is non-additive to the annual quantity authorized under Certificates 7342-A and 7342-A.
- The instantaneous withdrawals of these water rights are additive.
- The combined annual quantity under all rights is limited to a total of 843 AFY.

**Appeal process**

You have a right to appeal this decision. To appeal this you must:

- File your appeal with the Pollution Control Hearings Board within 30 days of the “date of receipt” of this document. Filing means actual receipt by the Board during regular office hours.
- Serve your appeal on the Department of Ecology within 30 days of the “date of receipt” of this document. Service may be accomplished by any of the procedures identified in WAC 371-08-305(10). “Date of receipt” is defined at RCW 43.21B.001(2).
